Subject Distribution of aluminium profile to support business growth.

To Director and Manager
 The Stock Exchange of Thailand

We, Porn Prom Metal Public Company Limited, would like to inform that to support the growth of the company in the year 2013, the company was ordering the aluminium profile for machinery and construction, the company sold the aluminium profile to the automotive industry of semi-trailer as the first, which qualification is light weight so make the weight of truck decrease 20% and can carry more. In order that, to support the demand of market and will be increasing the efficiency and save cost. The demonstration of semi-trailer was approved the quality by the government organization. The aluminium profile is a light weight of material, durable, can disassemble and adapt it later which is suitable use in the machinery and building including other industry.

Please be informed accordingly.

Sincerely yours,

(Mr. Chamnarn Pornpilailuck)
